

What is the energy sector like in Colombia?

The electricity sector in Colombia is dominated by large hydropower generation (65%) and thermal generation (35%). Despite the country's large potential for new renewable energy technologies (mainly wind, solar, and biomass), this potential has been barely tapped.

What are the three major energy companies in Colombia?

The three largest players in commercialization are Unifensa (with Electrocosta and Electrocaribe), Endesa (in Bogotá) and Empresas Públicas de Medellín (EPM). Colombia has 28.1 GW installed capacity of renewable energy (excluding large hydro), consisting mainly of wind power.

Will GEB buy Enel Colombia?

For example, in June 2021, GEB announced an agreement with the Italy-based energy multinational Enel to create Enel Colombia, a subsidiary that will include additional equity value of US\$1.4 billion in renewable energy assets located in Colombia, Panama, Costa Rica, and Guatemala. GEB is well positioned to make these moves.

How does Colombia's electricity sector work?

An interesting characteristic of the Colombian electricity sector (as well as of its water sector) is a system of cross-subsidies from users living in areas considered relatively affluent and from users consuming higher amounts of electricity to those living in areas considered poor and to those who use less electricity.

What energy projects are being implemented in Colombia?

The Inter-American Development Bank has currently one energy project under implementation in Colombia, the Porce III Hydroelectric Power Plant, owned by Empresas Públicas de Medellín and approved in October 2005. This is a US\$900 million project, of which the IDB is contributing US\$200 million.

How is the electricity market regulated in Colombia?

The electricity market in Colombia has regulated and non-regulated segments. The regulated market, which is directly contracted and supplied by distribution companies, applies to industrial, commercial, and residential users with power demands under 0.5 MW. In this market, the tariff structure is established by the regulatory agency CREG.
